TECHNOLOGY

A SUPERIOR EXTRA
STRONG DECK THAT'S
LOW-MAINTENANCE
AND DURABLE

BRITE

COMPOSITE DECKING SOLUTIONS

**“SOLID XS”
ENGINEERED FOR EXCEPTIONAL
BEAUTY AND DURABILITY**

BriteDeck’s Solid XS range utilises wood-polymer composite decking technology for a superior extra strong deck that’s a low-maintenance and durable alternative to wood decking.

The deck is made from hardwood and recycled polymers which combine to produce a high quality finish that out performs traditional treated wood.

Long Lasting , Low-Maintenance

Will not rot, decay, warp, bend or splinter. Clean with soap and water or mild household cleaners.

Environment Friendly & Socially Responsible

Manufactured using recycled polymers and hardwood.

Money Saving

We oversee manufacturing and sell directly to the public, providing quality decking at factory prices.

Colourfast Technology

Anti-aging, weather and UV resistant - looks brand new even after years of use.

Time Saving

No pre-drilling, nailing or punching. Time savings of up to 70% over wood decking.

Safe And Child-Friendly

Anti slip, no splinters, no nail heads sticking out.

OUR SECRET CLIP SYSTEM

No rusty nail heads, no screws - elegant and safe

Starter Clips

T2 Decking Clip

Anti- Creep Clip

JOIST SPAN AND BOARD EXPANSION

We recommend a 450mm joist span as per Australian standards. Please refer to our installation guide for information on board expansion and contraction based on your local temperature.
