Heavy Brush Finish

## INNOVATIVE MATERIAL THAT COMBINES THE AESTHETIC APPEAL OF REAL WOOD WITH THE STRENGTH & DURABILITY OF POLYMER

Introducing designer aesthetics with advanced composite technology and an ultra-thick profile engineered to withstand higher concentrated loads and Australia's unique climate. This boards utilise WPC technology for a superior deck that's low-maintenance and a durable alternative to traditional wood decking.

This sleek design boasts a massive 150mm profile and comes in a variety of elegant, earthy colours. Best of all, every XS150 composite board is backed by a 15-year warranty. Available in Wood Grain and Heavy Brush finish.

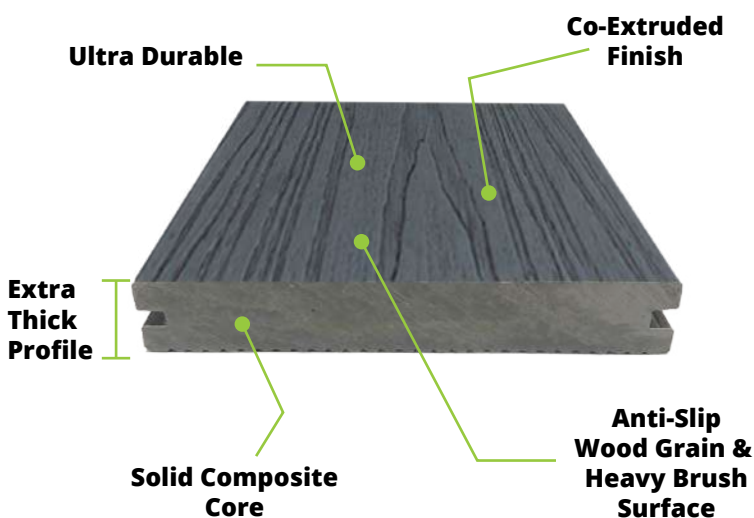

Available in matching Fascia boards
